

Republican Union State Convention. Honors Republican State Central Committee, Madison, July 8, 1871. A State Convention of delegates representing the Republican Union party of Wisconsin is hereby called to meet at the Capitol, in Madison, at 12 M., on WEDNESDAY, AUGUST 30, 1871, for the purpose of nominating candidates for State Officers to be elected at the next general election, and to transact such other business as may be deemed appropriate.

Each Senate and Assembly District will be entitled to two delegates to the Convention. E. W. REYNOLDS, Chairman, Madison.

INSURANCE. The business of insurance has become one of the largest and most important interests in the United States.

The business of insurance has become one of the largest and most important interests in the United States. Insurance is one of those branches of business which if conducted by men of experience and in accordance with the laws established by the authorities on the subject is very profitable.

We were surprised on looking at his report for the past year at the amount of insurance business transacted in this state. For life insurance there has been paid during the year \$1,770,000 while for losses the companies have paid but \$498,753.

And still another case of accidental shooting resulting fatally has occurred at Terre Haute, Indiana. A Mr. Stunkard, one of the prominent business men of that city placed a revolver in his pants pocket and sat down in a chair striking the hammer on the side of the chair, the cartridge exploded and the ball penetrated the abdomen several inches to the right of the navel.

FROM WASHINGTON. PROBABILITY. Washington, July 29.—Rain will probably advance north-east along the coast of New England, but will generally be censured by this morning, followed for a short time by fresh north-west winds.

STATE ITEMS. —The Wisconsin Academy of Arts, Scientific and Letters is in session, at Madison, and very actively attended. —Preparations are making for the great yachting regatta that has ever taken place in the west, to take place on Fourth Lake, on August 25th, when boats and crews from several places are expected to be present.

—The Chicago bug is working in Dane county, some fields are so badly injured that they will not be cut. —The Chilton Times mysteriously hints at the recent perpetration in Calumet county of "one of the most horrible outrages, that ever came to its knowledge, that one of the parties has been arrested, and another party, who is a clergyman, has disappeared. We are promised a full report when a legal investigation takes place.

FROM NEW YORK.

THE ORANGEMEN. New York, July 20.—At a meeting of the Glendon Loyal Lodge of Orangemen, last evening, resolutions were adopted thanking Governor Hoffman and the military and police for the protection afforded during the parade last Wednesday.

THE HIBERNIANS. At an indignation meeting of the Irish Americans of the nineteenth ward, last night, Stephen Meary in a speech said: "How can we avenge the blood of men, which has been shed? How are we to secure proper protection in this country for the men of our own race? Shall Orangemen and know nothingism rule this city? Never! never! said the speaker, shall the scenes of Wednesday last be permitted again. When I saw the dead on Wednesday his blood curdled in his soul, and he prayed God that he would live to see the day when that act would be avenged.

He said a prospectus would soon be issued in Williamsburg to obtain the names of native born Americans to organize an order to be called the United Sons of America. It cannot do less than the English House of Commons, which prohibits Orange processions in Ireland. What was an Orangeman doing fighting the battles of the Union? Hibernians and Catholics kept aloof from the parade that day; if they had not done so there would be a different story to tell. If the law does not vindicate them, I may say something else to you at another time. Governor Hoffman should never receive the votes of Irishmen. Never! Never! TENNI C. CLAFFIN publicly announces himself as a candidate to Congress from the 8th District of this city.

WAR STATISTICS. New York, July 20.—A letter from Paris says thirty thousand persons, including 6,000 women and children, were killed in the suppression of the commune; 90,000 prisoners were captured, and the police are hunting for 50,000 more.

JOURNALISTIC INTELLIGENCE. The Times announces that the thirty-four shares belonging to Henry J. Raymond's estate were bought by E. B. Morgan, one of the managing partners of Aurora, in this State, for upward of \$11,000 a share. Morgan and Jones now hold eighty-two out of one hundred shares, the entire stock of the paper, and declare there has never been the smallest prospect of the Raymond shares falling into the hands of the Tammany ring.

It is reported that Charles Nordhoff, for many years connected with the Evening Post, has retired from its editorial management.

FROM WASHINGTON.

PROBABILITY. Washington, July 29.—Rain will probably advance north-east along the coast of New England, but will generally be censured by this morning, followed for a short time by fresh north-west winds. Partly cloudy and pleasant weather will prevail very generally, to-day, from Mississippi to the Atlantic and on the Gulf coast.

TELEGRAPHIC NOTES. —The Pope, in an address to the sacred college, on the 29th ult., gives up the papalship, declaring that all is lost and that nothing but a miracle can save them, closing by imploring his brethren to seek the interposition of the almighty. —A Joliet dispatch says the water from the Chicago river is killing all the fish in the Illinois river. Their dead bodies are to be seen floating down the stream in great numbers. —Japanese and Chinese contributions to

acts the tax, while the act for which they must be held liable is that of the government official, whose authority they have no right to question. The case presented to the solicitor is a novel one, and upon his decision rests the suspension or collection of the tax. While the attorney general has construed the act of July 14th, 1870, so as to make railroad and insurance companies liable to tax for the last five months of 1870, yet it is a question which may eventually be settled in court, whether the government is not bound by the acts of its officials, and the collection of tax declared illegal.

EARTHQUAKE. Severe Shocks Felt Along the Atlantic Coast. No Particular Damage Done. Sequake Reported by the Don Quixote.

AT PORTLAND. Portland, Me., July 20.—A distinct shock of an earthquake, lasting 30 minutes and four seconds, was felt in this city at 10 o'clock this forenoon. Persons in the streets felt the ground tremble under their feet and a buzzing was heard in their ears. The shock passed from the north to the south-east.

AT BOSTON. Boston, July 20.—A shock of an earthquake was felt here this forenoon. At SACO. Saco, Me., July 20.—The cities of Saco and Biddeford were pretty well shaken up by an earthquake at one o'clock this morning. They were generally awakened but no particular damage was done.

AT BRUNSWICK. Brunswick, Me., July 20.—A severe shock of an earthquake was felt here at one o'clock this morning. Persons who were awake at that hour say it was the most violent they ever experienced.

AT SEA. New York, July 20.—The ship, Don Quixote, of Calcutta, reports June 10th at 4:20 a. m., latitude 20 degrees and 30 minutes south longitude, 14 degrees, 40 minutes west, experienced a heavy sea squall, which caused the ship to tremble violently. The motion seemed from east to west and lasted some seconds. In about 15 minutes there was another shock, not so violent as the first, but lasting longer. The sensation was as though the ship was moving over rough bottom. The wind was southeast by east and had been moderate for some days before. The wind had been continually shifting all day following the shocks. The sea was agitated heavily, rolling from west and southwest. There was and had been, no wind sufficient to cause such rough shocks.

GREAT BRITAIN. London, July 20.—A meeting of the Democrats will be held in Hyde Park on Sunday next, the anniversary of the great reform demonstration of 1836, which was broken up by the police after a fierce conflict, in which the palings were broken down, and many persons hurt.

Madam Parepa Rosa sails in the Scotia, Saturday, the 29th, for New York. The prizes of Wimbledon Rifle meeting, has been distributed by Princess Louise. Several representatives of the Canadian Volunteers were successful competitors, and have received their awards at the hands of the Princess.

THE EMPEROR NAPOLEON. New York, July 19.—According to a London correspondent, Napoleon visits town every day. He generally strolls along the sunny side of Pond street, or haunts the bow windows of the club house. He is very popular with the working classes, who cheer him, and he is getting very fat.

BRAZILIAN ROYALTY. The Emperor and Empress of Brazil are industriously doing London, like any other visitors, and work hard at it.

INVESTIGATION OF SPIRITUALISM. The phenomena produced by Home, the American spiritualist medium, in London are being made the subject of a careful examination by Professor Crookes, the eminent chemist. Dr. Huggins, the equally eminent astronomer, and Mr. Sergeant Cox, of the English bar. The results of the yet incomplete examinations are recorded in the London Scientific Journal. The investigators are satisfied of the immense scientific importance of the subject. Professor Crookes and Sergeant Cox, both seem to be convinced of the existence of a nerve atmosphere, of various intensity, enveloping the human structure. Dr. Huggins has not yet been able to satisfy his mind, and wants to make further experiments.

DECLAYING MONARCHY. The London Spectator laments the decadence of the monarchical system of Great Britain. It says: "There is in this country but one great political institution, and that is apparently endeavoring to commit suicide by asphyxiation. The throne, as a political power, is dead. The Lords are dying, and if the House of Commons loses the respect of the country, there will be nothing left."

THE MUTUAL BENEFIT LIFE AND TRAVELER'S LIFE AND ACCIDENT. These Companies have been doing business from Fifteen to Eighty Years and are among the very best Companies in this country or in Europe.

the Mechanics' Fair at San Francisco, embrace an immense variety of manufactured goods, and will be a great feature at the exhibition.

It now appears that E. L. Carey, the principal instigator of the New York riot, holds the office of Port Warden by appointment of Governor Hoffman, and has not yet been discharged.

T. A. McCarty, the defaulting Post office clerk died on the 18th inst. Several days ago one of his children died.

A motion for a new trial of Dr. Herman, the abortionist, who was convicted of manslaughter at Washington, in causing the death of Henrietta Piddion, has been overruled by the Criminal Court.

The Michigan State Publishers Association is in session at Bay City. Orders were sent on the 19th inst. to General Cook, Arizona, to cease the warfare on the Apache Indians till the Peace Commissioners have an opportunity of trying their influence.

The postmaster at Jacksonville, Florida, who is a son of Governor Reed, of that State, having become a defaulter to the post office department in the sum of about \$17,000, the department will at once remove Reed from office.

Some Irishmen have issued a circular calling an indignation meeting, to protest against the action of Governor Hoffman in issuing his proclamation.

The steamer Joseph Barber, was burned on Lake Michigan on the morning of the 19th inst. Two lives were lost.

Of the two hundred and forty-eight deaths in Chicago, last week, one hundred and thirty-six were of infants under one year.

The canal for the drainage of the Chicago river thus far is a success without a drawback. The river continues pure and fresh as the lake itself, and it is a pleasure to cross the river instead of a dread as it used to be.

The French government has resolved to place an import duty of 20 per cent on cotton, wool, hemp and flax, and an import duty of 5 per cent on silks.

Colonel Buel, of Salt Lake, has just completed the sale of the Utah bullion mining property to an English firm for \$100,000.

—Destructive swarms of grasshoppers are reported in Penning county, Minnesota, which are making a clean sweep among the fields and gardens, and serious damage has been inflicted.

The Utah Central Pacific Railroad is completed to Little Cottonwood, eight miles south of Salt Lake city, and is progressing steadily southward.

On Monday the Coroner of St. Louis held inquests upon seven persons who had died from the effects of the heat.

POLITICAL.

The Chicago Times is hopeful for democratic victories, even in Wisconsin. In speaking of the gubernatorial nomination it says: "The democrats of that state are deliberating upon the selection of a candidate in a spirit that promises the best results. The names that are being canvassed embrace those of the very best men in the state, and the final choice can scarcely fail to fall upon an unexceptionable candidate. Under such leadership, and with an intelligent statement of live issues for a platform, such as is foreshadowed in the call for the convention, Wisconsin ought to be redeemed."

The following is from the Boston Advertiser: "The servility of a party press never had a sadder illustration than in the conduct of the Democratic papers toward the New York difficulty. Not a man who has the spirit of an American citizen read the Tammany order with other feelings than those of loathing and indignation. Leading Democrats denounced it vigorously and shed tears at the city's humiliation. Yet the democratic papers which should have been the first to resent an infringement on popular liberty, stood forth and, with a few bright exceptions, strove to stem the tide of rising anger at the Tammany surrender. The attempt was a woful failure, but the shame remains. There is but one depth of degradation not yet sounded. Let them now publish eulogues on the martyrs of the pavement, for their own party was lessened by just the number of ruffians that bit the dust."

Confident hopes of carrying the next election in California are expressed by well-informed Republican politicians.

The name of Chief-Justice Thompson of Pennsylvania is mentioned in connection with the Democratic nomination for President next year.

The Republicans of Ohio open their campaign on the evening of the 25th of August, with eleven meetings in different parts of the State. General Noyes and James Monroe will speak in Columbus, Senator Morton in Dayton, General Garfield in Cincinnati, Senator Sherman in Toledo, Samuel Shellabarger in Cleveland, Governor Hayes in Zanesville, Aaron F. Perry in Portsmouth, John A. Bingham in Steubenville, Lieutenant Governor Lee in Akron, Secretary of State Sherwood in Mansfield, and William Lawrence in Lima.

John Quincy Adams has written a letter on the political situation, in which he says: "The war has confirmed, beyond a shadow of turning, the destiny which decreed that there shall be but one confederated people of the North American Union." He is glad that a noble spirit is prevailing in the Southern people, "while the sterling sense of Mr. Vallandigham has reformed the Northern democracy. And it matters not what man may be chosen to lead us, so long as his heart is large enough to hold his whole country, his soul brave enough to embrace a Confederate as a brother, and his platform wide enough for every American citizen to stand upon."

The Newburyport Herald's attempt to bring out Butler as the republican candidate for Governor of Massachusetts meets

with very little response, and even the Boston Traveler pronounces against it, and comes out square for Loring. This is the way the Traveler puts the case: "In this juncture, therefore, we cannot spare General Butler from Congress, and we trust he will not listen to the counsels of those who have too evidently neither his own interests nor those of the commonwealth at heart, and by adding another to the list of candidates for the governorship—some of whom must be disappointed—deprive the state of a most efficient representative in Congress.

—In his speech at Frankfort, Kentucky, Hon. G. W. Craddock unequivocally said that so far as Kentucky is concerned the great body of the democracy is opposed to the new departure, and that the discussion of that subject there will do much harm.

The republicans of North Carolina are thoroughly aroused on the subject of the proposed illegal amendment of the constitution of the state. The democrats seem bent upon pushing through their violent programme, regardless of plain constitutional requirements.

STATE ITEMS.

—La Crosse papers report an unusual number of burglars in that city.

—A fine new Methodist church—one of the largest in the State—was dedicated at Racine, last Sunday. The sermon was preached by Rev. B. J. Ives, of New York. Over \$20,000 were raised, clearing the society of all indebtedness.

—The Madison City Council has, by a vote of seven to four, subscribed \$25,000 stock to aid in the extension of the Northwestern Railroad to Baraboo, which it is contemplated, will be open to that place by the 1st of September. The issue of certificates to a like amount in aid of the Portage Road, in which the people voted some time since, is still delayed by a disagreement about details.

The examination of twenty teachers for State certificates, at Madison, is completed, and all the ladies and gentlemen, it is expected, will pass, though the names and standing cannot be announced for some days.
