RECEPTION TO YACHTSMEN

Hawaii Yacht Club Gives
Visitors Good
Time

As predicted, the reception and dance tendered to the visiting yachtsmen at the Moana last Saturday evening was the best ever in that line of entertainment.

The affair was given under the auspices of the Hawaii Yacht Club and that name alone is a certificate to the character of any social function given under that name.

The yachting costumes worn by many who attended made a pleasing contrast with the beautiful gowns worn by the ladies and the ballroom was a sight not to be forgotten soon by the boys who came across the ocean in the tiny craft.

The attendance at the reception certainly exceeded the expectations of those who had the affair in hand, and for a time it looked as if the lawn would have to be pressed into service as a place to trip the light fantastic, the ball room and the dininghall being filled to overflowing with the whirling couples as the dance went on.

The patronesses were: Princess Kawanakoa, Princess Kalaniana'ole, Mrs. Faxon Bishop, Mrs. Walter Frear, Mrs. Robert Shingle, Mrs. L. A. Thurston, Mrs. Albert Waterhouse, Mrs. Carl Widemann, Mrs. J. MAUIANS DO NOT LIKE METER

Sunday last District Overseer Bal installed a big water meter alongside the road and a little below the reservoir, for the purpose of measuring the amount of water drawn daily from the Government reservoir.

The work was begun early Sunday morning and by three o'clock in the afternoon when the flood gate was opened the big meter was at work registering a flow of 18,000 gallons of water an hour. Monday morning following the people of Waikuku, not all but few here and there were complaining, the Maui News printing establishment among them that they could get no water.

Finding that the meter was retarding the flow of water more than was expected, District Overseer Bal had it disconnected, and now everything is running as smoothly as it was before the water meter idea was ever thought of.—Maui News, July 30.

SEAQUAKE JOLTS BIG MONGOLIA

Passengers Believed That
Vessel Bumped A
Whale

A sea quake of no mean proportion jolted the big Pacific Mail liner Mongolia which passed through Honolulu on Saturday on her recent voyage from the Orient. The steamer was off the Pescadore at the time the convulsion of the earth gave the huge craft a jolt that startled every one on board. Some thought that the vessel had touched bottom, others that there had been a collision with a whale or a piece of submarine wreckage others that the tail shaft had snapped off.

The passengers were at luncheon and with the first jolt the meal was suspended, although everyone kept his place. A few seconds later came another but lighter shock and naturally it did not affect the feeling of uneasiness that went through the ship.

But nothing else happened, the comforting pound of the engines kept up and the ship moved forward in all staidness.

The few who had been in seaquakes before were very sure of what had happened. As a matter of fact the Mongolia was at the time well out in the channel with thirty fathoms of water under its keel and there was no chance that the disturbance was due to any other cause.

"There must have been some very severe submarine disturbance," said one of the passengers. "I am informed that the seismographs did not record the disturbance but it certainly was sharp. It jolted that big ship sharply and there was a report that sounded like a collision. My first thought was that one of the shafts had broken but a second later I could make out the steady throb of the engines and knew that the incident did not lie there."

ANOTHER WOMAN CURED

By Lydia E. Pinkham's
Vegetable Compound

Gardiner, Maine.—"I have been a great sufferer from organic troubles and severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. Williams, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.
